**RE: Second Production of Columbia Falls Aluminum Company in Response to
9/3/2014 EPA 104(e) Information Request**

Dear Mr. Wilder:

I am sending today via Federal Express to your attention 5 additional boxes of documents believed to be responsive to the September 3, 2014 EPA 104(e) request to Columbia Falls Aluminum Company. A DVD containing an electronic version of these documents is being prepared and will be sent to you next week. As discussed previously, in light of the breadth of EPA's request, CFAC commits in good faith to continue its search for responsive documents and to produce additional documents as quickly as possible. For all documents provided in response to the 104(e) Information Request, CFAC claims confidentiality under 42 U.S.C. 9604(e)(7)(E) and (F) and 42 U.S.C. 6927(b), and 40 C.F.R. 2.203(b). Disclosure of submitted documents will be considered a violation of law.

Some of the documents being produced may be responsive to more than one Paragraph of the Request for Information; in that case, the documents are being produced in response to the Paragraph we consider them most applicable. The number following "CFAC" in the control numbering system reflects the Paragraph of the Information Request to which the document is believed to be responsive and pursuant to which the document is being produced; and the number following the colon indicates the production number of the documents within a particular Paragraph.

The documents labeled CONFIDENTIAL 104(e) CFAC 7:010264 – 015197 are believed to be responsive to Paragraph 7 of the Request for Information.
